"*H. somnus*", non-immune immunoglobulin binding, 307
Haemorrhagic colitis, 3, 11, 77
Hepatitis
B, acute, 237
chronic, 237
immune complexes in, 237
Hybridisation of DNA
assay for detection of *C. pylori*, 257
staphylococcal trimethoprim resistance, 67
Hydrophobicity, cell surface, 29

Ileal loops
enteropathogenicity of *E. coli*, 1
enterotoxigenicity of *C. jejuni*, 87
Immune complexes, in hepatitis, 237
Immune response
effects of cyclosporin A, 245
non-specific, to campylobacters, 55
Immunisation
against meningococcal infections, 170, 174
mice against *C. jejuni*, 265
mice against *Salmonella*, 115
rabbits against *F. pedrosoi*, 217
Immunoblotting
antibody against *E. coli*, 11
*F. pedrosoi* antigens, 217
leptospiral flagellar antigens, 47
methicillin resistant *S. aureus*, 189
monoclonal antibodies against *Salmonella*, 115
Immunodiffusion
immune complexes in hepatitis, 237
Immunoglobulins
effect on cell surface hydrophobicity, 29
IgG, growth inhibition of *F. pedrosoi*, 217
IgG, immune complexes in hepatitis, 237
non-immune binding by "*H. somnus*", 301
penetration of *Klebsiella* capsule, 29
Immunoprecipitation
antigens of *F. pedrosoi*, 217
Immunosuppression by cyclosporin A, 245
Irritable bowel syndrome, 295

*Klebsiella*
capsule penetration by immunoglobulins, 29
cell surface hydrophobicity, 29
cysteine-requiring strains, 211
in urinary tract infections, 211

β-Lactamase, in blood culture media, 147
Latex agglutination assay, 37
Leptospiraceae
identification of flagellar antigens, 47
Lipopolysaccharide (LPS)
*B. abortus*, assays of body fluids, 37
campylobacter, and fetal development, 101
*E. coli*, role in adherence, 11
leptospiral, and flagellar antigens, 47
meningococcal, in clonal analysis, 173
meningococcal, and vaccines, 170
serogroup $C_2$ *Salmonella*, 115
Liver
enzyme activity during infections, 281
immune complexes in hepatitis, 237
Lung cancer
ELISA with pleural fluid, 241

Macrophages
role in campylobacter infection, 55
Media
blood culture, β-lactamase in, 147
for cysteine-requiring *Klebsiella*, 211

CONTENTS

## Volume 26. No. 1—May

REVIEW

**Virulence factors of enteropathogenic *Escherichia coli*** 1
*Law, D.*

**Adherence of Vero cytotoxin-producing *Escherichia coli* of serotype O 157:H7 to human epithelial cells in tissue culture: role of outer membranes as bacterial adhesins** 11
*Sherman, P. M. and Soni, Rohini*

**Adhesion of clinical and environmental *Aeromonas* isolates to HEp-2 cells** 19
*Carrello, A., Silburn, Katherine A., Budden, Julia R. and Chang Barbara J.*

**Penetration of immunoglobulins through the *Klebsiella* capsule and their effect on cell-surface hydrophobicity** 29
*Williams, P., Lambert, P. A. and Brown, M. R. W.*

**Longitudinal study of brucellosis in mice by immunoassay of lipopolysaccharide-related antigens in blood and urine** 37
*Limet, J. N., Berbinschi, A., Cloeckaert, A., Cambiaso, C. L. and Masson, P. L.*

**Identification of leptospiral flagellar antigens by gel electrophoresis and immunoblotting** 47
*Kelson, J. S., Adler, B., Chapman, A. J. and Faine, S.*

**Role of murine macrophages and complement in experimental campylobacter infection** 55
*Bär, W.*

**Bacteriuria and bacteraemia in patients with long-term indwelling catheters—a domiciliary study** 61
*Jewes, L. A., Gillespie, W. A., Leadbetter, A., Myers, B., Simpson, R. A., Stower, M. J. and Viant, A. C.*

**Trimethoprim resistance determinants encoding a dihydrofolate reductase in clinical isolates of *Staphylococcus aureus* and coagulase-negative staphylococci** 67
*Tennent, Jan M., Young, Hilary-Kay, Lyon, B. R., Amyes, S. G. B. and Skurray, R. A.*

**Announcements** 75

## Volume 26. No. 2—June

REVIEW

**Vero cytotoxin-producing strains of *Escherichia coli*** 77
*Smith, H. R. and Scotland, Sylvia M.*

**Enterotoxigenicity of chicken isolates of *Campylobacter jejuni* in ligated ileal loops of rats** 87
*Saha, S. K., Sing, N. P. and Sanyal, S. C.*

**Cytotoxic activity in broth-culture filtrates of *Campylobacter pylori*** 93
*Leunk, R. D., Johnson, P. T., David, B. C., Kraft, W. G. and Morgan, D. R.*

**The effect of campylobacter lipopolysaccharide on fetal development in the mouse** 101
*O'Sullivan, A. M., Doré, C. J., Boyle, S., Coid, C. R. and Johnson, A. P.*

**Production and characterisation of mouse monoclonal antibodies reacting with the lipopolysaccharide core region of gram-negative bacilli** 107
*Appelmelk, B. J., Verweij-Van Vught, A. M. J. J., Maaskant, J. J., Schouten, W. F., De Jonge, A. J. R., Thijs, L. G. and MacLaren, D. M.*

**Characterisation and application of a murine monoclonal antibody specific for the serogroup $C_2$ *Salmonella*** 115
*Luk, J. M. C., Chan, K. H., Tsang, R. S. W. and Ng, M. H.*

**Evaluation of a fluorescent monoclonal antibody reagent for identification of cultured *Neisseria gonorrhoeae*** 121
*Ison, C. A., Tanna, A. and Easmon, C. S. F.*

**Evidence for cross-infection in an outbreak of *Clostridium difficile*-associated diarrhoea in a surgical unit** 125
*Testore, G. P., Pantosti, A., Cerquetti, M., Babudieri, S., Panichi, G. and Mastrantonio Gianfrilli P.*

**Temporal changes in biotypes of *Haemophilus influenzae* isolated from patients with cystic fibrosis** 129
*Watson, K. C., Kerr, E. J. C. and Baillie, Maureen*

**Alteration of pulmonary structure by *Pseudomonas aeruginosa* exoenzyme S** 133
*Woods, D. E., Hwang, W. S., Shahrabadi, M. S. and Que, J. U.*

**Profiles of amino-acid utilisation and production amongst strains of *Branhamella catarrhalis*** 143
*Bezjak, V., Shah, H. N. and Barley, J.*

**Prospective addition of β-lactamase to blood culture medium** 147
*Brown, D. F. J., Warner, M., Taylor, C. E. D. and Warren, R. E.*

**Competitive enzyme-linked immunosorbent assay for *Treponema pallidum* antibodies** 153
*Codd, A. A., Sprott, M. S., Narang, H. K., Crone, P. B. and Turner, R. H.*

**Announcements**

**Volume 26. No. 3—July**

REVIEW ARTICLE
**Meningococcal infection** 161
*Duerden, B. I. (editor) et al.*

**Evaluation of electrophoretic methods for typing methicillin-resistant *Staphylococcus aureus*** 189
*Gaston, M. A., Duff, P. S., Naidoo, J., Ellis, K., Roberts, J. I. S., Richardson, J. F., Marples, R. R. and Cooke, E. M.*

**Site of action of a gonococcal growth inhibitor produced by *Staphylococcus haemolyticus*** 199
*Frenette, M., Beaudet, R., Bisaillon, J.-G. and Portelance, V.*

**Bovine erythrocyte-agglutinin as a possible adhesin of *Bordetella bronchiseptica* responsible for binding to porcine nasal epithelium** 205
*Ishikawa, H. and Isayama, Y.*

**Characteristics of cysteine-requiring strains of *Klebsiella* isolated from urinary tract infections** 211
*McIver, C. J. and Tapsall, J. W.*

**Immunochemical characterisation of antigens and growth inhibition of *Fonsecaea pedrosoi* by species-specific IgG** 217
*Ibrahim-Granet, Oumaïma, de Bievre, C. and Jendoubi, M.*

**Ribosomal-RNA patterns of *Escherichia coli, Salmonella typhimurium* and related Enterobacteriaceae** 223
*Smith, N. H., Crichton, Pamela, B., Old, D. C. and Higgins, C. F.*

**The effect of antibiotics on bacterial colonisation of vascular cannulae in a novel in-vitro model** 229
*Elliott, T. S. J., D'Abrera, V. C. and Dutton, S.*

SHORT ARTICLE
**A study of the evolution of specific and non-specific immune complexes in acute hepatitis B and chronic hepatitis** 237
*Leyva, A., Bernal, M. C., Piedrola, G. and Maroto, M. C.*

**Announcements** 240

**Volume 26. No. 4—August**

**False-positive reactions with enzyme-linked immunosorbent assay of *Mycobacterium tuberculosis* antigens in pelural fluid** 241
*Dhand, R., Ganguly, N. K., Vaishnavi, Chetna, Gilhotra, R. and Malik, S. K.*

**Exacerbation of experimental pyelonephritis by cyclosporin A** 245
*Miller, T. E. and Findon, Glenne*

**Observations on the resistance to drying of staphylococcal strains** 251
*Beard-Pegler, Mary A., Stubbs, Elizabeth and Vickery, Alison M.*

**Detection of *Campylobacter pylori* DNA by hybridisation with non-radioactive probes in comparison with a $^{32}$P-labelled probe** 257
*Wetherall, B. L., McDonald, P. J. and Johnson, A. M.*

**Cross-protection of infant mice against intestinal colonisation by *Campylobacter jejuni*: importance of heat-labile serotyping (Lior) antigens** 265
*Abimiku, Alash'Le and Dolby, Jean M.*

**The importance of extracellular antigens in *Pseudomonas cepacia* infections** 269
*Straus, D. C., Woods, D. E. Lonon, Miriam K. and Garner, C. W.*

**Changes in hepatic superoxide dismutase and xanthine oxidase activity in mice infected with *Salmonella typhimurium* and *Pseudomonas aeruginosa*** 281
*Takahashi, Megumi, Ushijima, Tsutomu and Ozaki, Yoshikatsu*

**Types of *Salmonella paratyphi* B and their phylogenetic significance** 285
*Barker, Ruth M., Kearney, Gabrielle M., Nicholson, P., Blair, Andrea L., Porter, R. C. and Crichton, Pamela B.*

**The faecal flora of two patients with food-related irritable bowel syndrome during challenge with symptom-provoking foods** 295
*Wyatt, G. M., Bayliss, C. E., Lakey, A. F., Bradley, H. K., Hunter, J. O. and Jones, V. Alun*

**Differentiation of phase I and variant strains of *Bordetella pertussis* on Congo red media** 301
*Parton, R.*

**Non-immune immunoglobulin binding by *"Haemophilis somnus"*** 307
*Widders, P. R., Smith, J. W., Yarnall, M., McGuire, T. C. and Corbeil, L. B.*
